2024 PROFILE

ALPHA GLOBAL L.L.C.

COMPANY OVERVIEW

ABOUT US

Specialization in Security Printing Machinery

At Alpha Global L.L.C., we specialize in the provision of state-of-the-art security printing machinery essential for producing high-security items like credit cards, passports, and ID cards. We also offer advanced packaging machinery and premium fine papers, tailored to meet the diverse and demanding needs of the industry.

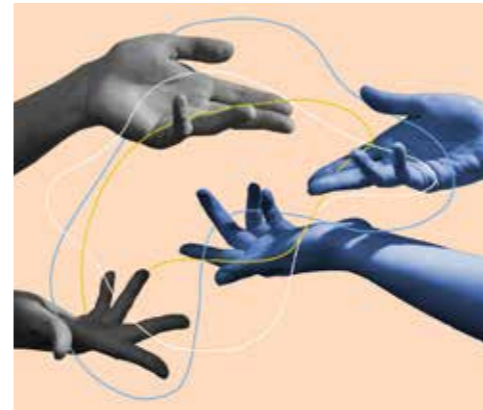

History and Market Presence

Founded in 2012, we have quickly established a commanding presence in the UAE, becoming a well-recognized name among many leading companies. Our reputation for excellence is a testament to our commitment to quality and reliability, and it reflects our enduring dedication to serving our clients with only the best products and services available.

A DECADE OF EXCELLENCE, PIONEERING THE FUTURE OF PRINTING ACROSS THE UAE.

PRODUCTS, SERVICES & MARKET

Bridging European innovation with your security printing and packaging needs.

OUR EXPERTISE

Specialization in European Printing Technologies

We commit to introducing and integrating the latest European technologies within the security printing and packaging sectors. Our portfolio includes sophisticated systems at the forefront of the industry, designed to help our clients enhance their operational efficiency and product quality.

After-Sales Services

We take great pride in our exceptional after-sales support, which includes the provision of spare parts and comprehensive maintenance services conducted by skilled technicians from Germany. Our goal is to ensure that our clients' equipment operates at peak efficiency with minimal downtime, thereby maximizing their investment.

Client Trust and Prioritization

Our long-standing relationships with our clients are built on a foundation of trust and commitment to their success. We prioritize their interests above all, providing personalized service and attention to detail that ensures their complete satisfaction with every transaction.

Target Customers & Key Clients

Our primary customers include enterprises involved in the production of plastic cards, security documents, and commercial paper products. Serving top companies in the UAE, we are recognized as leaders in the security printing industry.

LOOKING AHEAD

VISION

Our vision is to set the industry standard as the leading provider of comprehensive print solutions for major financial institutions and the broader printing sector across the UAE and beyond. We aim to continuously expand and enhance our services to support the evolving needs of our clients, ensuring we remain at the cutting edge of technology and service delivery.

MISSION

Our mission at Alpha Global L.L.C. is to consistently provide the highest level of service and the finest European machinery to our clients across the Gulf region. We are dedicated to exceeding client expectations by delivering tailored solutions that are both innovative and cost-effective.

EQUIPPING YOUR BUSINESS WITH ADVANCED TECHNOLOGY FOR ENHANCED PROTECTIVE OPERATIONS. ”

KEY CLIENTS AND GEOGRAPHICAL REACH

KEY CLIENTS

Serving top companies in the UAE, we are recognized as leaders in the security printing industry. Our commitment to providing high-quality products and services has earned us the trust and loyalty of some of the most prominent names in the market. This recognition is a reflection of our relentless pursuit of excellence and our dedication to maintaining strong, supportive client relationships.

GEOGRAPHICAL REACH

With a strong focus on the UAE and the Gulf region, our services cater to a diverse client base. Our extensive market reach allows us to understand and adapt to unique market dynamics and client demands across different regions, ensuring tailored solutions that are highly effective. This geographical diversity enriches our expertise and enables us to offer comprehensive solutions that are innovative and globally competitive.

FROM THE GULF TO THE GLOBE, EXPANDING POSSIBILITIES THROUGH EXPERT PRINT SOLUTIONS. ”

LATEST TECHNOLOGY AND EQUIPMENT

Elevate your enterprise with our advanced printing solutions, designed to enhance efficiency, strengthen security, and ensure superior quality. Our industry-leading technologies provide seamless integration and unmatched precision, equipping you to excel in a competitive market. Experience significant gains in productivity and profitability as you embrace the future of printing.

We also offer an extensive range of customizable and scalable products to meet your specific needs. Our solutions are tailored to support your business's unique requirements, ensuring that you have the flexibility to grow and adapt. **Here are the featured products:**

The PersoMaster is a robust card personalization system from Atlantic Zeiser, capable of securely printing and encoding up to 3,000 cards per hour, including eIDs and driver's licenses. It combines laser marking and UV color ink for durability and security.

The CASS C8000 is a high-efficiency card sorting and mailing system from Otto Kuennecke, featuring advanced sorting capabilities and enhanced data security for handling sensitive information.

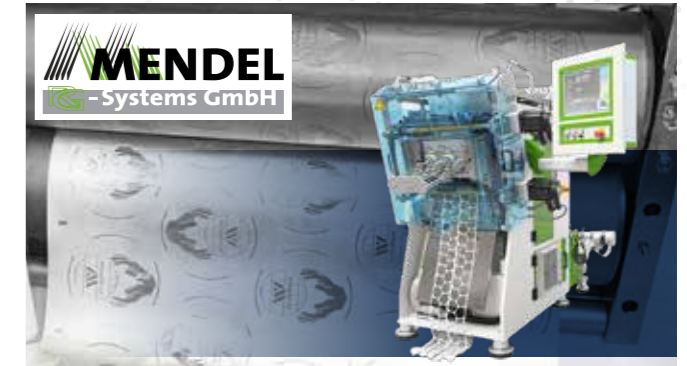

Schober's RSM410 is designed for precise digital converting in in-mold labeling and complex die-cutting, making it ideal for short-run, customizable production needs and a wide variety of specialized applications.

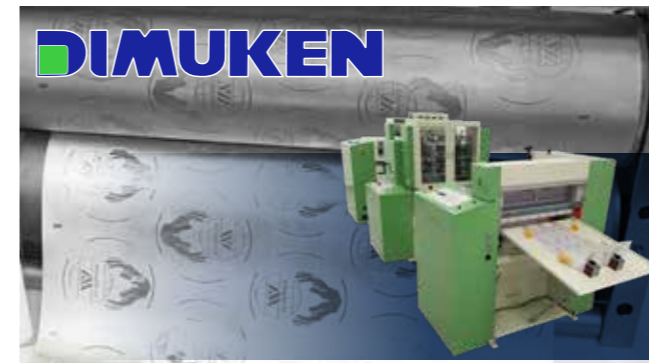

DJM's Ultra WB uses advanced 1200 dpi piezoelectric printheads for high-definition printing at speeds up to 200 meters per minute, suitable for a variety of water-based ink applications.

Schober Technologies provides high-speed rotary systems for packaging, specializing in cutting, punching, creasing, and embossing films, cardboard, and laminates. Their systems ensure precise processing for blister, liquid, and folding carton packaging.

MEDESA® WEBMASTER CUBE is the high-performance die cutting machine for the economical production of foil cuttings, whether flat, domed, deep drawn, perforated, pre-cut, stamped or embossed.

The Dimuken PC Line has been developed for the application of Kinegrams (and Holograms) onto materials such as Polycarbonate and PVC. KINEGRAM Technology offers the ultimate in foil based security features.

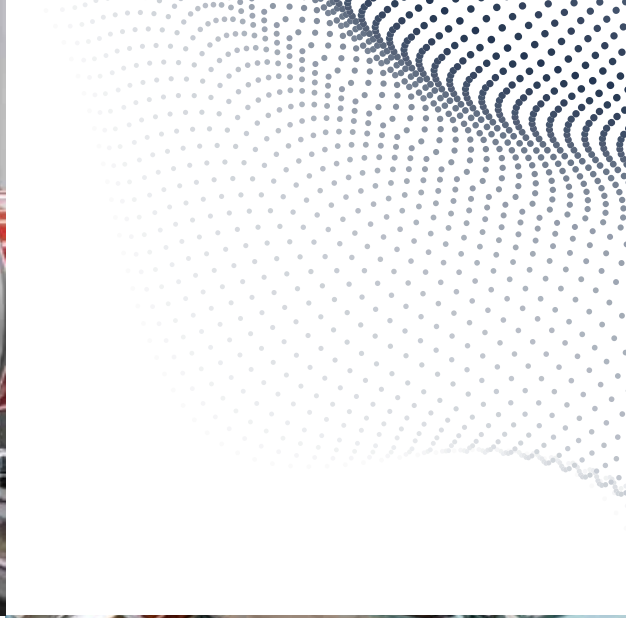

James Cropper specializes in custom papers and packaging that combine luxury with sustainability. Their expertise in molded fiber and specialty papers enables unique, eco-friendly, and stunning packaging.

Equipping your business with the latest in technology to keep you a step ahead in the market.

Zeiser's Impact Numbering offers precise mechanical numbering for high-security printing needs, ensuring traceability and security in financial and official documentation, including various legal, corporate records, and government-issued documents.
